- Parking with water and electricity connection

Article 2 – Access to the area

Parking within the Camper Area is reserved exclusively for motorhomes (autocaravan), as defined by Article 54, paragraph 1, letter m) of Legislative Decree no. 285/1992 ("vehicles with a special bodywork and permanently equipped to be used for the transport and accommodation of up to seven people, including the driver"). "Parking" (sosta) is defined in accordance with Article 185 of the Highway Code.
Access is strictly prohibited to any other category of vehicles or trailers (e.g., caravans, camper trailers, tent trailers), vehicles not complying with the permitted category, or vehicles in an obvious state of malfunction likely to cause disturbance to other users. Access for Police and Emergency rescue vehicles is always guaranteed.
Unauthorized vehicles that enter the Camper Area unlawfully (for example, without a reservation) will be immediately expelled or, if left parked, forcibly towed away with all costs and penalties charged to the driver/owner.
Access to the area and the use of the services are subject to the prior payment of the daily rates established according to the duration of the stay. The amounts are set by resolution of the Municipal Executive (Giunta Comunale) and are publicly displayed at the entrance and inside the Camper Area.
